

Doctoriales UPPA 2015

"Collaborative Innovation"

Concept and Program

19/10/2015 – 23/10/2015

Concept

- One week in an **immersive** and **very intensive** seminar dedicated to... **YOU!**
- If you ask yourself about...
 - What is a Ph.D? What are my own skills? How can I communicate about my professional experience? Which word should I use to describe my knowledge and know-how? Do I really have any competencies!?
 - What is expected from a young Doctor on the « labour market » regardless of my project (do I want to work for a private company, an institution, a lab, a NGO?) ?
 - What could I do after my Ph.D? Which ways are open to a professional profile like mine?
- If you need to have a break to put into question what you are doing, open your mind, develop or catch some ideas, or challenge yourself about your own projects...

Doctorials? it's a concept built around teamworking, meeting, communicating, simulating, challenging, networking, understanding and discovering.

Program

- **Monday** – introduction, teamworking about innovation, communication.
⇒ From 1PM to 10PM
- **Tuesday** – Roleplaying game and meeting with young Doctors to talk about their life path and cursus. Then, networking and cocktail party at the “Science Village” in the evening.
⇒ From 8:45 AM to ~10:30 PM
- **Wednesday** – Innovation Day.
Tough challenge for all the teams.
Work, search, suffer and amaze yourself!
⇒ From dawn to 11PM.
- **Thursday** – « green session » to recover, and debriefing of the previous day. In the evening and beyond : gala.
⇒ From 9:30AM to the middle of the night
- **Friday** – Simulation and wrap-up session
⇒ From 8:45 AM to ~2PM

*“A problem is a chance
for you to do your best”
Duke Ellington*
