CHECK TIMETABLES OF SUBJECTS

To be able to check the timetables of subjects it is necessary to know the degree and year each course corresponds to. This information is available in “Studies” (“Titulaciones”) in the following link: http://www.ehu.eus/en/en-home, writing the subject code in “Advanced Search” option (“Búsqueda avanzada”, on the left of the page), just as it is stated in the student's enrolment. Afterwards, the information regarding the Faculty/School, Degrees, etc., which that code corresponds to will be shown.

To see the schedule

- Enter https://gestion.ehu.es/WebUntis/index.do?school=ehu#main
- Click on the section “Horarios” (Schedules), “Grupos” (groups). 3 menus or drop-down lists will appear:
  - “Grupos” (groups). Select the degree and the year the subject belongs to, in order to see the schedule. Depending on the degree and the year, there may be several groups with different schedules. For example:
    - Groups in Spanish: 1, 2, 3 (morning); 16, 17 (afternoon)
    - Groups in Basque: 31, 32 (morning); 46 (afternoon)
    - Groups in English: 61, 66 (morning)
    - Groups in French: 81 (morning)
  - “Sección” (section). Choose the section regarding the degree:
    - ETSI Bilbao:
      - Bachelor degree in Environmental Engineering
      - Bachelor degree in Industrial Organization
      - Bachelor degree in Industrial Technology Engineering
      - Bachelor degree in Telecommunications Engineering
      - Master in Industrial Engineering
      - Máster in Telecommunications Engineering
    - EUITI Bilbao:
      - Bachelor degree in Computer Engineering in Management and Informations Systems
      - Bachelor degree in Electrical Engineering
      - Bachelor degree in Industrial Electronic and Automatica Engineering
      - Bachelor degree in Mechanical Engineering
    - EUITI Minas:
      - Bachelor degree in Civil Engineering
      - Bachelor degree in Mining and Energy Engineering
    - Náutica:
      - Bachelor degree in Marine Studies
      - Bachelor degree in Nautical Studies and Maritime Transport
      - Master in Marine Studies
      - Master in Nautical Studies and Maritime Transport
  - “Semana desde” (week). Choose the week you would like to see.

There are different types of class (not all subjects have all types):

- “Magistral” (master class): in the classroom (theory, problems), they are the same every week of the term or semester. You can see where the classroom is. If “Teoría” or PA1 appears, it’s the same.
- “Laboratorios” (labs) (GL1, GL2, GL3 … or PL1, PL2, PL3…). The theory group is divided into subgroups for the lab. Each student should be in ONLY ONE of these subgroups and can choose the one that best fits his/her schedule.

Laboratories are not taught every week.
