

Estatistics for August/2018

September 1, 2018

Arina

In this brief document we show the usage of arina during August. This month 79124 computing days where used and the the average use of the cluster was 69 %. Since the first of December 802993 computing days where used and the the average use of the Arina cluster was 79 %. The figure shows the usage of Arina along the month. In the first table the usage of each user is shown. The third column indicates all the time each user has used for calculation during this month. The fourth column shows the average time that each job was waiting before the it started running, in days units. In the second table, the same data as in table 1 collected by group is shown.

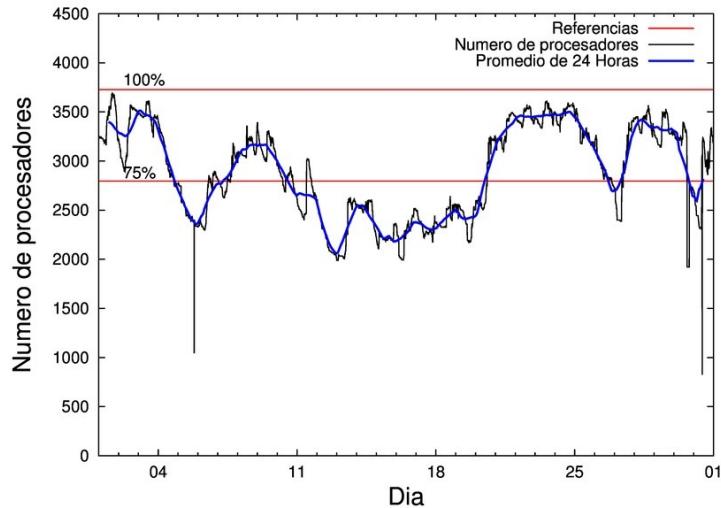

Figure 1: Cluster use. The blue line is a 24 hours average.

Table 1: Calculated time and waiting time in days of the users.
