UNIVERSITY  
OF THE BASQUE  
COUNTRY

## Research and Education in Project Management - REPM 2020

### About the conference

Project Management is recognized as one of the best tools to develop successful developments. The objective of this Conference is to present results from advanced research into the Project management discipline. This year conference will have as discussion topic the [participation of women in Project Management](#).

We expect contributions from researchers, professors and doctorate and master program students. Participation of PM practitioners is expected also in workshops and seminars.

### Sponsors

*The conference is the perfect environment where to make visible your organization in the Project Management community. Look at the webpage for special opportunities.*

### Topics

The second edition of the conference will maintain its three thematic areas: **Research** in PM, **Sustainability** and PM, and **Education** in PM. Besides a special slot will be dedicated to **Women in Project Management**.

**Research** in PM: Continuous effort into research is the only guarantee to develop advanced techniques and tools. The PM community is being increasingly recognized through their Scientific Journals. Some of the topics to be discussed are: Trends in PM and PM research. Networking as a tool for research.

**Sustainability** and PM: The World needs PMs to be aware of the importance of their role into sustainable development projects. Proposed topics to be discussed are: Responsible Project Management.

**Education** in PM: Project Management professionals feel the need of deepening in their knowledge when they face daily problems. On the other hand, University is the main instrument to educate professionals. Cooperation between academy and industry is a must. Proposed topics to be discussed are: Life long PM education. Higher Education. Doctorate studies and PhD thesis in PM.

**Women in Project Management.** Little has been discussed about the participation of women in the management of projects. Do management styles differ? What other aspects impact the success of projects managed by women?

### Important dates

Full contributions: **31 December 2019**
