7th ISBEE World Congress
Bilbao, Spain | July 20-22, 2022

We cordially invite you to (re-)submit proposals for the 7th ISBEE World Congress in Bilbao, Spain, to participate in the discourse on how we may re-invent globalization, the role of local communities, virtues and values, and the power of purpose. The 7th World Congress, initially planned for 2020, will now take place *on site and in person* in Bilbao from July 20-22, 2022.

The world is in a paradoxical state: cumulative global wealth is at an all-time high, unemployment in many advanced economies at an all-time low, and yet, dissatisfaction with the outcomes of global capitalism is growing, especially within younger generations. Moreover, trust in business leaders and elites in most large economies is at an all-time low, triggered by self-serving behaviour of leaders and prominent business scandals, putting at risk the legitimacy of economic actors and their social license to operate.

The reasons for distrust and dissatisfaction are manifold: growing inequality in income and access to resources and a widening gap between rich and poor; complacency of elites in politics and business and their inaction in addressing the grand challenges of our time: the ethical tragedy of global climate change and the quest for sustainable futures; poverty alleviation and the challenge of a more inclusive and less divisive world; access to meaningful work, and health and well-being at work, and the ability to lead an active life; and the global leadership crisis and the rise of extremism around the world.

Moreover, the global Covid-pandemic has demonstrated that ‘we are all in it together’ – the world is inextricably linked together and that only joint efforts and collaboration can save and sustain humankind. Yet, the global pandemic has also demonstrated that our world is deeply divided and that wealth and access to essential resources differ vastly.

At the same, we are witnessing the rise of the purpose economy and global search for meaning; unprecedented opportunities (and challenges) through digital technologies and AI; and political activism of younger generations with the purpose of re-claiming their future.

About the ISBEE World Congress

The ISBEE World Congress is often referred to as the "Olympics of Business Ethics" and attracts leading scholars and practitioners from around the world to examine comparative approaches to some of the most pressing ethical issues facing businesses and their stakeholders. It has been held every fourth year from 1996 in a location chosen not only for its practical accessibility but

also its strategic importance to the global economy: 1996 in Tokyo, Japan, 2000 in São Paulo, Brazil, 2004 in Melbourne, Australia, 2008 in Cape Town, South Africa, 2012 in Warsaw, Poland, and in 2016, in Shanghai, China. In 2020 from July 15-18, the Seventh ISBEE World Congress will be hosted in Bilbao, Spain by the University of the Basque Country (UPV/EHU) and University of Deusto (UD).
