

# Doctoriales UPPA 2017

## Previsional program

16/10/2017 – 19/10/2017

# Concept

- One week in an **immersive** and **very intensive** seminar dedicated to... **YOU!**
- If you ask yourself about...
  - What is a Ph.D? What are my own skills? How can I communicate about my professional experience? Which word should I use to describe my knowledge and know-how? Do I really have any competencies!?
  - What is expected from a young Doctor on the « labour market » regardless of my project (do I want to work for a private company, an institution, a lab, a NGO?) ?
  - What could I do after my Ph.D? Which ways are open to a professional profile like mine?
- If you need to have a break to put into question what you are doing, open your mind, develop or catch some ideas, or challenge yourself about your own projects...

**Doctorials? it's a concept built around teamworking, meeting, communicating, simulating, challenging, networking, understanding and discovering.**
