Concept and provisional agenda

09/07/2018 – 12/07/2018

Concept

- One week in an immersive and very intensive seminar dedicated to... YOU!
- If you ask yourself about...
 - *What is a PhD? What are my own skills? How can I communicate about my professional experience? Which words should I use to describe my knowledge and know-how? Do I really have skills!? Do I have/need a professional network?*
 - *What is expected from a young Doctor on the « job market » regardless of my project (do I want to work for a private company, an institution, a lab, a NGO?) ?*
 - *What could I do after my PhD? Which ways are open to a professional profile like mine?*
- If you need to have a break to put into question what you are doing, open your mind, develop or catch some ideas, or challenge yourself about your own projects...

Doctorials? it's a concept built around teamworking, meeting, communicating, simulating, challenging, networking, understanding and discovering.

What about the 'Poster'?

You must ALL bring a "Poster"... Yes, ALL.

⇒ This is not really an "academic poster" but rather a poster about "yourself and your research project".

Dimension : **A0** (841mmx1189mm), font **24** minimum.

⇒ It must describe the context of your research work, **your thesis** (nature, ambitions, applications, scientific exploitation, what you do, what you want to demonstrate) and **yourself** (your own ambitions, your dreams and projects, who you are).

Be creative !!

Projected Agenda

- **Monday** – introduction, teamworking about innovation, communication.
⇒ From 10AM to evening
- **Tuesday** – workshops about innovation, professional networking and professional projects
⇒ From 8:45 AM to evening
⇒ After the dinner = networking at the “scientific village”
- **Wednesday** – Innovation Challenge.
Tough work for all the teams. Imagine, search, create, suffer and amaze yourself!
⇒ From dawn to evening
- **Thursday** – debriefing and “job interview” simulations + wrap-up session
⇒ From 9:00AM to 4:45PM
