Internship N26 - Business Operations Intern

We are The Mobile Bank / Our vision is to build a bank the world loves to use.

Once here you will?

- Support strategic projects working directly with Head of Business Operations
- Run data analysis in business operations
- Develop and drive cutting-edge business operations projects, e.g. new product implementation, rapid process automation, contract negotiation
- From your first day on, you will assume responsibility and take ownership of your own projects

What you'll bring along?

- You will graduate with a Bachelor’s or Master’s degree from a top-tier university in Business Administration, Economics, Finance, Business Informatics, Mathematics, or a related field
- You possess exceptional analytical and strong Excel skills
- You have ideally SQL experience
- You have ideally experience in startups and want to understand the banking/FinTech business
- You are a fast learner and work well within a fast-paced work environment
- You have a strong service mentality and are solution oriented
- You have good communication skills and like to work in and as a team
- You are available for at least three months, ideally six
- You are ideally available from September onwards
- A hands-on mentality, stress resistance as well as excellent English skills complete your profile

What we offer

- High degree of autonomy
- Crucial role in a highly motivated, talented team
- Your choice of a new Mac or Windows laptop
- Flat hierarchy and open communication
- Newly designed office in Berlin-Mitte
- A stack of the most modern technologies
- Probably the best cup of coffee in the neighbourhood
- Paid internship
