

## **Invitation: Summer Universities back in Vienna 2022**

We would like to draw your attention to our two award winning **Summer Universities 2022 – back in person in Vienna** again!

Our academic programs are offered to students and professionals, who want to gain unique benefits and knowledge for their future career in the field of sustainability:

### **Alternative Economic and Monetary Systems (AEMS) – 18 July to 5 August, 2022 | 5 ECTS**

The AEMS summer school focuses on alternatives to the economic status quo and unstable financial systems and is open to students and professionals from all fields. Participants learn why a drastic system change is necessary to stabilize the world climate at 1.5°C and learn about alternatives available.

**Application deadline for scholarships: May 2<sup>nd</sup>, 2022**

### **Green.Building.Solutions. (GBS) – 16 July to 7 August, 2022 | 7 ECTS**

As a Master-level program, the GBS summer university invites students of architecture, construction, engineering and similar fields to deepen their knowledge in sustainable architecture, ecological design, passive house planning and new energy technologies, and to incorporate the gained knowledge in a multicultural and interdisciplinary group design project.

**Application deadline for scholarships AND to receive the 7 ECTS: April 4<sup>th</sup>, 2022**

General application deadline (both programs): June 30, 2022

Website: <https://www.oeadstudenthousing.at/en/summer-universities/>, folders attached!

On **March 15**, we are hosting a **Virtual Open House Session** to clarify any open questions applicants may have. Interested students can **register [here!](#)**

We look forward to receiving applications from all over the world and would highly appreciate if you **share this information** with your students, colleagues and friends!

Thank you and best wishes,  
AEMS & GBS Team

**Lets stay connected & add us on social media!**

# ALTERNATIVE ECONOMIC AND MONETARY SYSTEMS

THE ECONOMY OF THE FUTURE

STOP CLIMATE CHANGE NOW!

Summer University, Vienna

July 18 - August 5, 2022

## There is no planet B!

We have to act now in order to limit global warming to 1.5°C. AEMS focuses on ways to restructure economic systems to embody sustainable use of resources and a more collaborative society overall.

At AEMS you learn about:

**Ecological sustainability**, population growth and the long-term management of natural resources and energy.

**The variety** of alternative economic and monetary systems that are already in practice worldwide.

**Business ethics**, consumerism, solidarity and the common good: The need for a new philosophy.

## ORGANIZERS

**BOKU University of Natural Resources and Life Sciences** contributes to a sustainable use of natural resources by connecting natural sciences, engineering and economic sciences.

**Economy for the Common Good** offers an answer to current ecological, social and economic problems. As of 2021, more than 3,900 members have committed themselves to the initiative.

Each year, **OeAD student housing** accommodates over 2,500 students in energy-efficient dormitories. It also won the 2013 Austrian Climate Protection Award.

## STAY TUNED!

## → Benefits

Earn 7 ECTS university credits while learning about the cutting edge in sustainable buildings within an interdisciplinary and cultural exchange. Theory is combined with practical exercises and a hands-on approach.

## → Learn from the best

International experts from universities, research institutions, and companies share latest developments from research and practice.

## → Best practice at hand

Buildings in Vienna showing the application of sustainable theories are presented as part of the course.

## → Try it yourself

Enjoy Vienna while living in a passive house.

## → Organizers

The **OeAD student housing**, winner of the 2013 Austrian Climate Protection Award, offers passive houses for active students and accommodates 2,500 international guests annually in innovative and energy-efficient student dormitories.

The **BOKU University of Natural Resources and Life Sciences, Vienna** teaches sustainable use of natural resources by connecting natural, engineering and economic sciences.

The **TU Vienna** focuses on the relationship of energy to the environment in architecture, urban planning, as well as natural and engineering sciences.
