It is useful to have good marketing skills in social media too.</p>
<p>Other commentaries</p>	<p>We are looking for motivated individuals who want to be part the development and launch of a patented and innovative product. You will participate in a product release, work together with the founders of the company and see how the released product will fare in the market and which the customer response is. If you are looking for an exciting internship where a lot will happen, this is your company.</p>

APPLICATION FORM 1

INFORMATION ABOUT THE COMPANY/INSTITUTION

<p align="center">LOGO</p>	
<p align="center">WEBSITE</p>	<p>www.AuroxTech.com</p>
<p align="center">INFORMATION ABOUT THE CITY AND THE AREA WHERE THE COMPANY/INSTITUTION IS LOCATED</p> <p>(General information about SECURITY, ACCOMODATION, PUBLIC TRANSPORT...)</p>	<p><u>CITY</u>: Graz (Austria) is the capital of the region called Styria. It has a population of 320,000 habitants, which makes it the second most populate city in Austria.</p> <p><u>PUBLIC TRANSPORT</u>: Graz has a large public transport network. There are several ways to move around the city, such as the bus or the tram. Moreover, its train station connects Graz easily to other cities. The airport is 10km south from the city center, but it's easily reachable by bus or train. Besides, there are a lot of bicycle lanes.</p> <p><u>ACCOMODATION</u>: Either living in a residence or renting a flat is a good choice here in Graz. The price range for both varies from approx.250 to 500€, it will always be cheaper renting shared flats than a single ones. There are very calm areas, while the city center is more crowded, but not noisy at all. Locals are also very nice and helping.</p> <p><u>SECURITY</u>: It is a very safe and peaceful city.</p>
<p align="center">GENERAL INFORMATION ABOUT THE COMPANY/INSTITUTION</p>	<p>AUROX® GmbH has set itself the task of developing wearables that enhance the well-being of people worldwide. Comfort has been associated with being at the right temperature and as nothing else has such a significant impact on our wellbeing, all AUROX®'s novel Life-Science wearables apply thermoelectric cooling to certain areas on the body. Therefore, AUROX® is an R&D company that pushes really forward innovation and product development.</p>
<p align="center">SIZE OF THE COMPANY (EMPLOYEES)</p>	<p>Five employees in the main office and external partners which support AUROX® (Medical University of Graz, for instance).</p>
<p align="center">NUMBER OF PEOPLE AT THE DEPARTMENT WHERE THE TRAINEESHIP WILL TAKE PLAKE</p>	<p align="center">5</p>
<p align="center">MAIN ACTIVITY OF THE COMPANY/INSTITUTION</p>	<p>The company is specialized in the development of portable life science and iTech products which use thermoelectric cooling therapy. AUROX® devices are based on the Peltier effect, of which elements are able to control and provide the optimum temperatures that relieve patients' discomfort.</p>
<p align="center">A BRIEF EXPLANATION OF MAIN PROJECTS</p>	<p>The company's newest development, called AUROX® Headband, is a wearable that applies precise thermoelectric cooling to the forehead and temples. Due to this effect on the uppermost branch of the trigeminal nerve, people's individual comfort and wellbeing will increase. It can be started location-independently, due to the fact that it is super lightweight (115 g) and works completely noiselessly. Moreover, it can be individually controlled with the buttons of the hardware and/or via AUROX®'s app-software to maximize users' experience.</p> <p>Other devices are based on treating varicose veins or external otitis.</p>
