

Dear colleagues,

We are happy to announce the AAU Summer School 2015 and we would like to offer your students the unique opportunity to experience compelling lectures based on our well-known Problem Based Learning model.

The AAU summer school 2015 takes place during the summer for 3 weeks from 20th July to 7th August 2015 at Aalborg University, Denmark.

The 2015 summer school courses are:

- Energy Efficient and Clean Shipping
- Future Smart Energy
- Mobile Phone Programming
- Network Coding: From Theory to Practice
- Power Electronics
- Programming Social Robots for Human Interaction
- Psychophysics: From Stimulus to Perception

Each course is 5 ECTS and will run for the whole 3-week period.

Students may anticipate a high professional outcome in a dedicated international environment along with a series of extra-curricular activities.

Further information about the summer school can be found on <http://summerschool.aau.dk>

We kindly ask you to distribute this information to your colleagues and students. Please feel free to contact me should you have any queries.

Thank you in advance and best regards,

Ove Andersen
Director of Studies
