MEKTORY

MY JOURNEY TO EUROPE

Estonia impressed me with its beauty of nature and innovative city culture. On one hand, Tallinn is rich in pure nature - parks, forests and the amazing seaside. The medieval Old Town has beautiful ancient architecture, which makes it mysterious & extraordinary. On the other hand, free WIFI that can be found in all public places reminds me that I am in the birth-place of Skype – city full of innovative high technology! I will never forget the time spent there, it was definitely one of the best summers I have ever had!
