

HELSINKI SUMMER SCHOOL AUGUST 5 TO 21, 2014

Helsinki Summer School (HSS) is a three-week academic event organised every August by the University of Helsinki, Aalto University and Hanken School of Economics. Each year we give advanced degree students from over 60 countries an unforgettable experience that combines high-level academic studies with a wide range of cultural and social activities.

HSS is open to students from all over the world. We also accept a limited number of applications from Finnish students, exchange students enrolled at Finnish universities and professionals. Participating to the summer course before or after the exchange period offers a great opportunity to prolong studies and of course experience the lovely Finnish summer with international student colleagues.

Application period is open!

This year we organize all together 16 courses that offer the students a great opportunity to deepen their knowledge for example in the themes of science fiction, environmental issues and design.

More detailed course descriptions and a link to our application system are available on our website: www.helsinkisummerschool.fi.

If you need something to put on a noticeboard, the course descriptions can easily be printed out from our website!
