APPLICATION FORM 1

INFORMATION ABOUT THE COMPANY/INSTITUTION

LOGO	
WEBSITE	www.meltprep.com
INFORMATION ABOUT THE CITY AND THE AREA WHERE THE COMPANY/INSTITUTION IS LOCATED (General information about SECURITY, ACCOMODATION, PUBLIC TRANSPORT...)	<p>Styria is a state or Bundesland, located in the southeast of Austria.</p> <p>Graz is the capital of Styria and the second-largest city in Austria after Vienna. Graz has a population of about 400.000 people. Graz has a long tradition as a "university town": Its six universities have more than 44,000 students. Its "Old Town" is one of the best-preserved city centres in Central Europe.</p> <p>An extensive public transport network makes Graz an easy city to navigate without a car. The city has a comprehensive bus network, complementing the Graz tram network consisting of eight lines. Four lines pass through the new underground tram stop at the main railway station (Hauptbahnhof) and on to the old town before branching out. Furthermore, there are seven night-time bus routes, although these run only at weekends and on evenings preceding public holidays.</p>
GENERAL INFORMATION ABOUT THE COMPANY/INSTITUTION	MeltPrep is a young Graz based startup which was founded in the beginning of 2016. We have international customers in Asia, Europe and the United States of America. Our tools accelerate the research in the pharmaceutical drug development by cutting down the preparation time and material inputs. To expand our product portfolio continuously, we are using additive manufacturing to prototype new solutions.
SIZE OF THE COMPANY (EMPLOYEES)	10
NUMBER OF PEOPLE AT THE DEPARTMENT WHERE THE TRAINEESHIP WILL TAKE PLAKE	5 in Engineering and 3 in Marketing & Sales
MAIN ACTIVITY OF THE COMPANY/INSTITUTION	MeltPrep has developed innovative laboratory equipment for the pharmaceutical industry. The technology is patented and opens new possibilities. The main activity is the commercialization of the technology and the development of new products to the diversify the product range.
A BRIEF EXPLANATION OF MAIN PROJECTS	<p><u>Engineering:</u> We are constantly working on the improvement and development of our products. The main focus lies in 2021 and 2022 on the development of an integrated mixer within the vacuum compression molding (VCM) Tool. We are using additive manufacturing (3d printing) to create prototypes of the new solution.</p> <p><u>Marketing & Sales:</u> Marketing of the existing VCM Product lines and preparation of the commercialization of new products of the MeltPrep development pipeline. The niche market with a few thousand customers requires targeted strategies to reach the potential buyers of the VCM technology. Within this internship different marketing channels should be used including online marketing, printed adds in scientific journals and cold calling campaigns. Participation in international fairs to promote our three different product lines.</p>

PREVIOUS COLLABORATION IN INTERNSHIP/TRAINING PROGRAMMES?	We have hosted three global training trainees in the past.
OTHER COMMENTARIES	We were able to extend the last Global Training internship for six more months.
