<p>INFORMATION ABOUT THE CITY AND THE AREA WHERE THE COMPANY/STITUTION IS LOCATED (General information about SECURITY, ACCOMODATION, PUBLIC TRANSPORT...)</p>	<p>Amsterdam is the capital of the Netherlands. It is a vibrant city with many inhabitants from all over the world. Despite its size, it doesn't feel huge and one can really feel at home fast. The city is really open and if you want and feel like it; making new friends is very well possible. As in every big city, less good things happen in Amsterdam, but generally it is a very safe city with many parks and we even have the Amsterdam Forest. We have many festivals. The climate has its variations, it can be cold, windy and rainy but frequently the climate can be friendly and dry, summers can be even warm by times. No year is the same.</p> <p>The public transport is very good; Bus, tram, metro and train take you everywhere if needed and since Holland is not so big- you can easily plan daytrips to other cities. Next to that; Amsterdam is the city of bikes, so if you practice a bit; you can save some money because the public transport isn't the cheapest.</p> <p>If you want a room/house under 600 euro per month; the best thing is to arrange a flat when you arrive (this was explained by our foreign employees) and stay a little while in hotels/hostels or air bnb-places. Searching something from abroad is not so easy.</p> <p>Our office is situated in the near center part of Amsterdam in a new harbour development area called and it takes around 10-15 minutes to really get into the citycentre from there. There is a busstop closeby (in rush hour every 2 min and in evening hrs every 15 min). We are located in a multitenant building with creative industries. We have a spectacular open view to the harbour.</p>
