APPLICATION FORM 1

INFORMATION ABOUT THE COMPANY/INSTITUTION

LOGO	vertify eyes explain vertigo
WEBSITE	www.vertifymed.com
INFORMATION ABOUT THE CITY AND THE AREA WHERE THE COMPANY/ISTITUTION IS LOCATED (General information about SECURITY, ACCOMODATION, PUBLIC TRANSPORT…)	CITY: Graz (Austria) is the capital of the region called Styria. It has a population of 320,000 habitants, which makes it the second most populate city in Austria. PUBLIC TRANSPORT: Graz has a large public transport network. There are several ways to move around the city, such as the bus or the tram. Moreover, its train station connects Graz easily to other cities. The airport is 10km south from the city center, but it's easily reachable by bus or train. Besides, there are a lot of bicycle lanes. ACCOMODATION: Either living in a residence or renting a flat is a good choice here in Graz. The price range for both varies from approx.250 to 500€, it will always be cheaper renting shared flats than single ones. There are very calm areas, while the city center is more crowded, but not noisy at all. Locals are also very nice and helping. SECURITY: It is a very safe and peaceful city.
GENERAL INFORMATION ABOUT THE COMPANY/INSTITUTION	Artificial Intelligence meets LifeScience – The Graz based Hightech-Startup Vertify is developing a Deep-Learning based software in the field of healthtech. Through the development of computer-aided detection, we make an innovative contribution to personalized vertigo clarification.
SIZE OF THE COMPANY (EMPLOYEES)	Seven people (Software programmer, Medical Eye doctor, Orthoptist, etc.) and external partners which support VERTIFY (Medical University of Graz, University of Applied Sciences Joanneum Graz). Furthermore Vertify has a mentoring board for additional company expertise.
NUMBER OF PEOPLE AT THE DEPARTMENT WHERE THE TRAINEESHIP WILL TAKE PLAKE	7
MAIN ACTIVITY OF THE COMPANY/INSTITUTION	The company's main fields are: Software programming, 3D-Modelling for Real-time rendering, Machine Learning as well as medical testings and evaluations.
A BRIEF EXPLANATION OF MAIN PROJECTS	The company is specialized in the development of an AI-based software, which is able to improve the interpretation and clarification of patients with dizziness and vertigo.

PREVIOUS COLLABORATION IN INTERNSHIP/TRAINING PROGRAMMES?	(*) Hosting multiple master thesis (*) Working with the University of Applied Sciences: 20 students work for 1year on Business Modell Innovation for VERTIFY GmbH
OTHER COMMENTARIES	We think we provide our interns good intrapreneurial skills and always in a pleasant and comfortable environment, which helps them increase their abilities to their best. Moreover, being such an international team gives us more multicultural knowledge and help us implement diversity to our company.

Universidad del País Vasco   Euskal Herriko Unibertsitatea
