

Dear colleague,

my name is Gerrit Horstmeier and I am a professor at Hochschule Furtwangen University in Germany. I am proud to announce our **HFU-Summer School programme 2017 for international students: “White Water Management – Learning Management in a new way”**, which might be of interest for your students. I would be happy, if you could forward this information to the students directly or to the people in charge of any outgoing offers.

This summer school teaches **relevant management principles in an action-orientated outdoor & white water kayaking environment** of the **canton Ticino in Switzerland from the 20th of July 2017 until the 27th of July 2017**. Our course language is **English**.

Like the environment for managers the environment of white water is marked through uncertain, unpredictable settings, which demands again and again strategic target-orientated decisions by the actors. Students will learn management principles effectively and directly exercised in action. This approach leads even kayak-beginners through the experience of white water straight to the core tasks of management. It's about skills, not about muscles! White water beginners are welcome!

The course provides **6 ECTS**. It is designed not only for students of Bachelor, Master and Ph. D. level with a focus on Business Management, but also for other related studies, which provide management input.

I would like to draw your attention to the our **homepage** <http://www.hfu-summer-school.com/> and the related [video](#). The course is also recommended by the [DAAD \(German Academic Exchange Service\)](#) . You can also find further pictures and information on our [facebook-account](#).

**Applications** are possible from now until **15th of June 2017**, but please have in mind that places are **limited to 12 students!**

If you have any questions about the programme or on any of the above, please do not hesitate to mail Prof. Dr. Gerrit Horstmeier ([hor@hs-furtwangen.de](mailto:hor@hs-furtwangen.de)).

I would appreciate it, if you could inform your students about this Summer School, as we are looking forward to welcome your students and invite them to discover our 8 days of programme. In case your university is also offering Summer School courses, I would be happy to transfer this information to our students via our International Office in return.

Thank you very much in advance and kind regards from Germany,  
Gerrit Horstmeier
