SIP Alumni about the Programme

This programme united me not only with the native country of my grandparents, but also with all Lithuanians, who hold their motherland deep in their hearts no matter where they live in the world. I am pleased to have made new contacts and discovered something I have in common with other world Lithuanians: a shared history. (Thammy, Brazil)

My internship was beyond amazing. I gained various skills at many levels. Programme itself helped me to get to know Lithuania from different perspectives. I would love to actually apply again next summer (is it technically possible?!) and I would definitely recommend it to my friends since it only brings positive things. Thank you once more for everything! (Maelle, France)

I was a little shy to speak Lithuanian at first, but the programme’s organizers gave me a warm welcome and a great tour of Kaunas and most wonderful parts of Lithuania. I also met other colleagues who have the same experience and see Lithuania as something more than a tourist attraction. (Takuya, USA)

About VMU

Vytautas Magnus University (VMU) cherishes and encourages intellectual exchange, culture, openness and international collaboration as its core values. We are proud to say that VMU is the only higher education institution in the country and one of the few in the region where a wide liberal arts education is imparted. Here at VMU we aim to promote knowledge along with freedom and creativity.

University also distinguishes itself by fostering interculturalism and multiculturalism: 30 foreign language courses are offered and, as a reflection of global trends, more and more lectures are taught in English, many of them by professors from abroad.
