UPV/EHU
From all of us,
For all of you

**It's public
It's ours**

Would you like to specialise further and gain qualifications with a postgraduate degree? If so, the University of the Basque Country is an excellent choice..

Our university is the Basque Country's largest higher education institution and offers more than 150 postgraduate programmes. Structured in three campuses -covering the three Basque territories-, our community of students, lecturers and researchers aggregates 60,000 fellows.

No less than 60% of research-based knowledge produced in the Basque Country is originated at the University of the Basque Country, a multilingual institution where Spanish, Basque and English are equally spoken.

Ranked among the top 500 world universities, our strategic alliance with the University of Bordeaux (France) has resulted in the first cross-border campus in Europe.

After exhaustive assessment of our activity, we were accredited Campus of International Excellence by the Spanish Ministry of Education. Boosted by this recognition, we aspire to even higher goals: becoming one of Europe's best.

If you are interested in building on your academic and professional qualifications, the University of the Basque Country can offer you 150 different alternatives, a positive learning environment, optimal technical and human resources and above all the prestige of a university committed to research excellence and postgraduate teaching.

The Basque Country (Euskadi)

The autonomous community of the Basque Country, Euskadi, is one of the 17 regions composing Spain. It is a small territory, similar in size to Rhode Island state (USA); the metropolitan area around Lille (France) or the Rhein-Ruhr territory in Germany. Its alpine relief is combined with 246 kilometres of coastline alternating spectacular cliffs and fine sandy beaches.

The Basque Country has preserved its age-old culture, language and character throughout History. The main features of Basques (slightly more than 2 million citizens) are their powerful looks, energetic personality and love for their family, their land and their traditions.

The Basque Country is divided into three historical territories or provinces: Araba, Biscay and Gipuzkoa. The administrative capital of the Basque Country is Vitoria-Gasteiz, however Bilbao is the largest city in the region. Donostia- San Sebastián is the most popular tourist destination.

Our campuses

Campus of Biscay

A total 9 Faculties and Schools make up our biggest campus. Along with 2 of them being located in downtown Bilbao, we have 7 faculties in our University complex of Leioa (15 km from Bilbao) and School Section in Portugalete.

Capital of Biscay

Bilbao

Population: 343,173 inhabitants

www.bilbao.net

Campus of Gipuzkoa

It is composed of 9 Faculties and Schools; while the vast majority is located in Donostia-San Sebastián, we have Engineering School Section also in Eibar (40 km South-East from San Sebastián).

Capital of Gipuzkoa

Donostia-San Sebastián

Population: 182,930 inhabitants

www.donostia.org

Campus of Araba

Our smallest campus hosts 7 faculties very centrally located in the city.

Capital of Araba

Vitoria-Gasteiz

Population: 223,702 inhabitants

Postgraduate courses

Our choice of postgraduate courses is designed to meet a wide range of needs, from the foundations to pursue a research career to the necessary resources for better professional development. Postgraduate qualifications include:

Master's Degrees which are advanced or multi-disciplinary study programmes aimed at academic and professional specialisation or starting on the path to research work. A Bachelor's degree in Spain needs the completion of 240 ECTS, i.e. 4 academic years. Master's degrees can last 1, 1.5 or 2 years depending on their total credit amount (60, 90 or 120 ECTS). Master's qualifications allow access to PhD studies.

Around 10 of our Master's Degrees are qualify graduates for regulated professions (lawyer, secondary education teacher...).

Our **PhD programmes** comprise a range of activities in which doctoral candidates, under the direction of research staff, continue their studies and research work, finishing with a thesis viva. On completion of their thesis, doctoral candidates are awarded the maximum academic qualification of Doctor. Around three years of full-time study are deemed necessary to complete a thesis.

Applicants for Master's programmes with non-Spanish undergraduate studies are requested to provide their full Bachelor's degree credentials: completion certificate and exhaustive transcript of records. These documents must be provided in Spanish, Basque or English. If the university is outside the European Union, they must be authenticated. In the case of PhD students, in addition to the documentation mentioned above, certification should be provided ratifying that the university qualification they have obtained (at their home university) entitles them to access a doctoral programme.

Admission and enrolment

Students must pre-register for both Master's and PhD programmes. This process is free of charge. Pre-registration for **Master's Degrees** usually takes place between March and May and full enrolment between July and October, although individual Master's courses may specify their own dates. Pre-registration for **doctoral programmes** is open from mid-September to October. Official enrolment is performed shortly after pre-registration confirmation.

For more information please consult the website, send an e-mail or call the contact number provided for each course:

<http://www.ehu.eus/en/web/estudiosdeposgrado-graduondokoikasketak/master-ofizialak>
<http://www.ehu.eus/en/web/estudiosdeposgrado-graduondokoikasketak/doktoregoa>

Year-round calendar for Master's programmes

3rd April – 31st May: On line pre-registration

1st June onwards: on line pre-registration opens for Master's with vacancies

After 1st June, each academic committee will inform pre-registered students by e-mail or on the university's website whether or not they have been accepted onto the programme. After this, accepted students must confirm their intention to participate.

Students must have enrolled before attending lectures. Enrolment can be completed on line or at the Secretary's office of the faculty or school running the Master's programme, and students must have been notified of their acceptance onto the course in order to enrol.

Starting dates may vary from mid-September to early October, so please check the dates for your programme.

Each programme's academic calendar, weekly schedule and Master's thesis deadlines should be confirmed with the programme's academic director. The deadline for completing a Master's course is 30th September.

Scholarships

Foreign students taking a Master's Degree can apply for one of the study grants offered by the University of the Basque Country.

Different types of financial assistance (which may last up to three or four years) is also available for PhD programmes.

convocatoriasayudas@ehu.eus

Exchange opportunities

University of the Basque Country students: We have a number of Erasmus+ bilateral exchange agreements both at Master and PhD levels. International, degree-seeking students can apply for a Erasmus+ exchange to one of our partner universities.

Foreign students wishing to apply for an exchange stay at the University of the Basque Country: Please, check whether your university has a bilateral agreement with us and keep a close watch on application dates at your home university.
