Other commentaries	

**INFORMATION ABOUT THE COMPANY/INSTITUTION**

<b>LOGO</b>	
<b>WEBSITE</b>	<a href="http://www.schrott24.at">www.schrott24.at</a>
<b>INFORMATION ABOUT THE CITY AND THE AREA WHERE THE COMPANY/ISTITUTION IS LOCATED</b>  (General information about SECURITY, ACCOMODATION, PUBLIC TRANSPORT...)	<p>Graz is a city with 300.000 inhabitants. It is the second largest in Austria. It has a great quality of life. The city has about 30.000 students (at 5 universities) and a nice cultural offer. The size still allows you to do everything by bike.            It is only 3 hours to the Mediterranean sea (Italy and Croatia) and mountains for skiing or hiking are within 40min reach.            A really nice place to be.</p>
<b>GENERAL INFORMATION ABOUT THE COMPANY/INSTITUTION</b>	<p>Schrott24 is helping scrap metal owners to maximize returns and scrap recyclers to fully utilize their capacity. We provide instant prices to sellers using advanced matching algorithms, while finding the best available recycling and transport combination out of thousands of options. We not only disrupt an old school industry, but make it more efficient. Efficient recycling increases the use of secondary resources thus has a positive impact on our climate.</p>
<b>NUMBER OF PEOPLE AT THE COMPANY OR DEPARTMENT WHERE THE TRAINEESHIP WILL TAKE PLACE</b>	<p>We are a team of 11, probably more once the candidates join. In software development we are three (two are natively speaking Spanish).</p>
<b>MAIN ACTIVITY OF THE COMPANY/INSTITUTION</b>	<p>We digitalize the old fashioned scrap metal industry. We provide different digital products like our online shop or individualized apps to different kind of metal scrap producers. We allow them to sell the metal frictionless and at a great price. On the other end of our platform business we have a big network of recyclers (globally) that we sell the material to. Our software finds the best match for each material and helps us in automising the operational processes. We are completely digital, never touch the material, but make sure it takes the most efficient rout in order to save money and emissions.</p>

<b>A BRIEF EXPLANATION OF MAIN PROJECTS</b>	<p>Two of the trainees will work on front-end related development and design (html / css / javascript - React) for our client-facing applications. One of the trainees will work as a full-stack developer, using nodejs, React, GraphQL and other cutting-edge technologies for the same applications.</p>
<b>PREVIOUS COLLABORATION IN INTERNSHIP/TRAINING PROGRAMMES?</b>	<p>Last summer we had interns from Aiesec here. This is what they said: "Spending almost 3 months in Schrott24 was a very motivating and rewarding experience on both professional and personal side. I have been directly involved in a fast-moving and ambitious environment that enhanced the work I was aiming to achieve by leveraging our skills and allocating the required resources to make the project a success. I worked in a friendly atmosphere with a real vision of progress and I could make the most of the very supportive people who surrounded me. Schrott24 is an innovative company I recommend anyone to work in. I had the feeling, namely through the high level of autonomy, to be useful and to have a key role to really bring a long-lasting impact to the firm." - Jacques Herzet from Belgium</p> <p>"I had such a great experience in Graz Austria at Schrott24. I was so well welcomed in Schrott24 family, which proved to be a family to me... what I discovered? ....even though everybody is doing something, his part, they are so willing to stop their work and answering to your question. When something is unclear ask, if nobody knows it, they'll brainstorming together to not have anything unanswered." - Danut Ianovici from Romania</p>
<b>OTHER COMMENTARIES</b>	We are warm and welcoming, while being high performing.
