Universidad Euskal Herriko del País Vasco Unibertistatea The final overall written exam will be divided into two parts. Taking into account that the first part of the exam is intended to assess the minimum knowledge required to acquire the necessary basic skills, students must obtain a minimum of 60% of its total mark to pass it, and then be assessed regarding their second part. In that second part, the minimum percentage to be obtained in order to be entitled to have the mark for class attendance rate and active classroom participation recorded will be 50%.

The mark achieved in the Ordinary Examination Session is made up by the following:

- 1. Continuous assessment activities (i.e. class attendance rate and active classroom participation): 20%
- 2. Continuous assessment midterm test: 10%.

In order to be entitled to sit for this test, students must have, by the date the test-takes place, at least a 90% attendance rate-out-of-the total number or teaching hours up to that date. THIS REQUIREMENT HAS BEEN ELIMINATED

3. Final overall written exam: 70%

4. Selective oral exam: POSSIBILITY TO HAVE YOUR MARK ADJUSTED UPWARDS. The addition of the marks achieved in the 3 previous sections will make it possible for the students to be awarded a maximum mark of 6.9/10 (C++ / Pass). In order to meet the requirements to take the oral exam, which will enable students to benefit from an upward adjustment of their mark and thus achieve the final mark of B, A or Distinction, the minimum mark to be obtained in the mixed assessment must be 6.5.

Please, note that the dates for the Final Exam (both ordinary and extraordinary calls) cannot be modified for any particular student or personal reasons.

Those students who wish to be assessed by means of the final assessment system, regardless of whether they have taken part in continuous assessment, are required to file with the lecturer in charge of the subject (i.e. Business English I) their waiver to the on-going assessment system, within a 9-week period from the beginning of the academic term, pursuant to the Faculty academic calendar dates.

Those students who have applied for and do meet the requirements to sit for the final exam will be assessed by means of a final overall written exam that will take place on the official dates passed at the Faculty Board Meeting and published in the official web page of the Faculty, and the mark that can be achieved shall be 100%. In order to pass this exam, students shall achieve in the first part a minimum of 60% of its maximum total, and in the second part a minimum of 50% of its maximum total.

Since the final exam will, in all cases, have a value higher than 50%, the regulations in force provide that failing to sit for this exam will, for all purposes, be understood to be a waiver to be assessed and the final mark in the student academic record shall be "NOT ATTENDED".

EXTRAORDINARY EXAMINATION PERIOD: GUIDELINES AND OPTING OUT

Assessment of the subject in the extraordinary examination session will be made exclusively by means of the final exam system. Please, take notice that the marks achieved by means of the continuous assessment system shall not be added up and taken into account at this extraordinary examination session.

In order to pass the written exam at this extraordinary examination session, students must achieve at least 60% of the total of its first part and 50% of the second one.

The mark achieved at the written exam will entitle students to achieve a maximum mark of 6.9 out of 10 (C++- Pass). In order to be able to take the selective oral exam, students must achieve a minimum mark of 6.5 in the written exam, which will allow them to have their final mark adjusted upwards and then have the option to be awarded a mark of B, A or Distinction.

Please, take notice that the oral exam will, in no case, lower the mark students have achieved in the written exam.

EVALUACIÓN ONLINE

Si por razones de emergencia sanitaria no se pudiera realizar una evaluación presencial, se utilizarán los recursos proporcionados por la Universidad del País Vasco para realizar una evaluación online. En este caso, el alumnado deberá tener JavaScript, así como la cámara y el micrófono habilitados en el mismo ordenador en el que se realicen las pruebas de evaluación.

Además, el alumnado podrá ser requerido por el profesorado de la asignatura para presentarse a una prueba de validación, con objeto de verificar la autoría de su examen escrito. Dicha prueba de validación consistirá en una entrevista por videoconferencia con un docente de la asignatura, quien le formulará preguntas relacionadas con su prueba de evaluación online con el fin de verificar su ejecución de dicho examen.

Si el alumnado valida su ejecución del examen escrito, se mantendrá la calificación derivada del sistema de evaluación (continua o final). En el caso de que el resultado de la prueba de validación sea negativo o el alumnado convocado no se presente a la misma, la calificación será SUSPENSO 0,0.

El profesorado podrá utilizar todas las herramientas a su disposición para evitar el fraude durante las pruebas de evaluación

MANDATORY MATERIALS

Students must attend classes with the relevant teaching dossier which includes the teaching material designed by the lecturers specified below, which may be purchased at the Faculty Photocopying Centre placed at the basement - Elcano.
