

# XVI INTERNATIONAL SYMPOSIUM OF PSYCHOLINGUISTICS

VITORIA-GASTEIZ

MAY 31st - JUNE 2nd, 2023

## ORGANIZERS

The Bilingual Mind (UPV/EHU)

## VENUE

Main Hall, Faculty of Arts (UPV-EHU)

## WIFI

Network: EHU-wGuest

User: ISP2023

Password: GogoElebiduna

**BALTHASAR BICKEL**

University of Zurich

*The Agent Preference in Comprehension  
and Production*

15:00  
Wednesday,  
May 31st 2023

**JUDIT GERVAIN**

Università degli Studi di Padova

*Neural mechanisms of early speech  
perception and language acquisition*

15:00  
Thursday,  
June 1st 2023

**MARCO CALABRIA**

Universitat Oberta de Catalunya

*At a loss for words*

10:00  
Thursday,  
June 1st 2023

**ESTI BLANCO-ELORRIETA**

Harvard University / New York University

*How does the bilingual mind process  
language?*

10:20  
Friday,  
June 2nd 2023

Wednesday, May 31st 2023

8:30 REGISTRATION AND MATERIAL DELIVERY

8:50 WELCOMING

9:00 - TALK 1.1

- *Cross-writing system variations influence the course of orthographic acquisition: An eye-tracking study on bilinguals with different L1 background.*

Yang Fu (Instituto Universitario de Neurociencias (IUNE))

9:20 - TALK 1.2

- *Exploring the automaticity of reading processes: Task demands modulation of behavioral and electrophysiological responses.*

Ana Belén García-Gámez (University of Granada, CIMCYC)

9:40 - TALK 1.3

- *The role of L2 proficiency and proactive control in new grammar learning.*

Marta Rivera (University of Granada (UGR))

10:00 - TALK 1.4

- *The reproducibility of infant fNIRS studies: a meta-analytic approach.*

Jessica Gemignani (University of Padova)

10:20 COFFEE-BREAK

10:40 POSTER SESSION 1

11:40 - TALK 2.1

- *The role of individual differences in emotional word processing: insights from a Spanish lexical decision mega-study.* Juan Haro (Universitat Rovira i Virgili (URV))

12:00 - TALK 2.2

- *Fixation Related Potentials in visual search for words.*

Barber, H. A. (Universidad de La Laguna)

12:20 - TALK 2.3

- *Cognateness, frequency, and vocabulary size: an interactive account of bilingual lexical acquisition.* Gonzalo Garcia-Castro (UPF)

12:40 - TALK 2.4

- *Interactivity of newly acquired emotional words in the mental lexicon.*

Beatriz Bermúdez-Margaretto (University of Salamanca)

13:00 LUNCH TIME

15:00 PLENARY SPEAKER 1 - Balthasar Bickel (Universität Zurich)

*The Agent Preference in Comprehension and Production.*

16:00 - TALK 3.1

- *Non-linguistic sensitivity to context mediates predictability effects in sentence reading: An eye-movement study.* Spyridoula Cheimarou (University of Alabama)

16:20 - TALK 3.2

- *An ERP study on the processing of gender features in Italian toddlers.*

Giulia Mornati (BCBL, Basque Center on Cognition)

16:40 - TALK 3.3

- *Different metaphorical construals of time affect valence estimations of temporal events.* Javier Valenzuela (University of Murcia)

17:00 - TALK 3.4

- *Does linguistic identity influence social attention? It depends on the perceived ‘status’ of the language.* Anna Lorenzoni (University of Padova)

17:20 COFFEE-BREAK

17:40 - TALK 4.1

- *Exploring the nature of the gender-congruency effect.*

Alba Casado (University of Granada)

18:00 - TALK 4.2

- *Second language acquisition of telicity in L2 English by Slovak and Spanish speakers.* Zuzana Nadova (University of the Basque Country UPV/EHU)

18:20 - TALK 4.3

*Electrophysiological insights on aspectual coercion.*

Stefano Rastelli (University of Pavia)

18:40 END OF DAY 1

Thursday, June 1st 2023

9:00 - TALK 5.1

- *The role of Differential Object Marking, thematic roles and language dominance in the anticipation of direct objects in Spanish and Catalan.*

Rut Benito (Universitat Pompeu Fabra (UPF))

9:20 - TALK 5.2

- *Speech traits can discriminate healthy aging, MCI and AD when assessed through the reading task with semantic load.* TALK CANCELLED

Olga Ivanova (University of Salamanca (USAL))

9:40 - TALK 5.3

- *COVID-19 related effects on early language development.*

Sónia Frota (University of Lisbon)

10:00 PLENARY SPEAKER 2

- *"Conferencia SEPEX" (SEPEX CONFERENCE).*

Marco Calabria (Universitat Oberta de Catalunya)

At a loss for words

11:00 COFFEE BREAK

11:20 POSTER SESSION 2

12:20 - TALK 6.1

- *The shared origins of associative and taxonomic priming effects in infants.*

Olivera Savic (BCBL)

12:40 - TALK 6.2

- *The development of conversational turn-prediction abilities in bilingual toddlers*

Marina Kalashnikova (Basque Center on Cognition)

13:00 - TALK 6.3

- *Learning repetition-based regularities in speech: a NIRS study with 7-month-old infants.* Gaia Lucarini (University of Padua)

13:20 LUNCH TIME

15:00 PLENARY SPEAKER 3

JUDIT GERVAIN (Università degli Studi di Padova)

*Neural mechanisms of early speech perception and language acquisition.*

16:00 POSTER SESSION 3

17:00 - TALK 7.1

- *Speech analysis to detect mild cognitive impairment and dementia.*

Israel Martínez-Nicolás (University of Salamanca) TALK CANCELLED

17:20 - TALK 7.2

- *12-month-olds’ understanding of negation.*

Ágnes Melinda Kovács (Central European University)

17:40 - Talk 7.3

- *Are babies’ cries already language?* Caroline Nallet (University of Padova)

18:00 - TALK 7.4

- *Categorical Speech Perception in Chinese Children with Autism Spectrum Disorder.* Fengrui Li (Nankai University)

18:20 - TALK 7.5

- *Does non-native directed speech support non-native listeners’ cortical tracking?*

Giorgio Piazza (BCBL), University of the Basque Country (UPV/EHU))

18:40 END OF DAY 2

20:30 SOCIAL DINNER (EL PORTALÓN)

Friday, June 2nd 2023

9:00 - TALK 8.1

- *What the microstructural properties of the Frontal Aslant of unimodal and bimodal bilinguals tell about language control.*

Francesca Peressotti (University of Padua)

9:20 - TALK 8.2

- *Uncovering the Role of Foreign Language on Acquiescence.*

Zhimin Hu (University of Padua)

9:40 - TALK 8.3

- *On the origin of bilingualism effects on cognition: social, cognitive or mixed? A systematic review.* Camilla Masullo (Universitat Rovira i Virgili)

10:00 - TALK 8.4

- *Undoing gender in a gender-marking language: Gender-inclusive forms in plural role nouns in German.*

Álvaro Cortés Rodríguez (University of Tübingen / University of Kassel)

10:20 PLENARY SPEAKER 4

ESTI BLANCO-ELORRIETA (Harvard University / New York University)

*How does the bilingual mind process language?*

11:20 COFFEE BREAK

11:40 POSTER SESSION 4

12:40 - TALK 9.1

- *Processing of synonyms and homographs in bilingual and monolingual speakers.* Clara Martin (BCBL)

13:00 - TALK 9.2

- *Orthographic effects in L1 speech production.*

Diana Solchaga (University of the Basque Country & BCBL)

13:20 - TALK 9.3

- *Exposure length to an artificial language significantly impacts adult mono- and bilinguals’ segmentation strategies.*

Patricia Fuente García (University of the Basque Country (UPV/EHU)

13:40 - TALK 9.4

- *Using Pupillometry to Examine Costs of Speaker-Switching Within and Across Accents.* Drew McLaughlin (Basque Center on Cognition, BCBL)

14:00 CLOSING CEREMONY

LUNCH - PICOTEO
