Countries Represented

Access to energy is a fundamental human right, **yet it remains inaccessible**

### 733 Million

people don't have access to electricity in the world

### Increase in cost

Energy prices are **75%** higher than their 5-year average

### 3 Billion

people do not have access to clean energy

### Up to 30%

of their revenue is spent on inefficient, dangerous, and polluting energy

## What is your challenge?

- A competition open to **students** and **young entrepreneurs** in all geographical areas to develop an **innovative business model** that provides **clean** and **affordable renewable energy solutions** for underprivileged communities.
- Subject: **Innovate for Impact - Renewable energy Solutions**
- Challenge Outcomes: Problem Identification + Project Proposal + Project Deck + Video Elevator Pitch
