

## University master's degrees with access requirements

### Academic year 2025/2026

In addition to access degrees, the following master's degrees have additional requirements:

<b>Actuarial and Financial Sciences</b>	<p>For students with certain Access degrees (Economics, Law, Statistics, Mathematics, Engineering, Architecture, Physics or other technical courses), completing complementary training may be required during the first course of the master's degree.</p> <p>Knowledge of at least a B2 level or equivalent in Spanish on presentation of the corresponding official qualification or, failing that, by any other means deemed appropriate by the Master's Academic Committee. Excluded from this procedure are graduates of an undergraduate degree taught in the Spanish University System that gives access to this master's degree or those from a Spanish-speaking country.</p>
<b>Advanced Systems Electronic</b>	<p>Accreditation of level B2 in Spanish, by means of a certificate or by means that the Academic Commission considers appropriate, except for graduates of Spanish degrees in the Spanish University System or from a Spanish-speaking country.</p>
<b>Advanced Engineering Materials</b>	<p>Knowledge of at least a C1 level or equivalent in Spanish on presentation of the corresponding official qualification or, failing that, by any other means deemed appropriate by the Master's Academic Committee. Excluded from this procedure are graduates of an undergraduate degree taught in the Spanish University System that gives access to this master's degree or those from a Spanish-speaking country.</p>
<b>Auditing and Advanced Accounting</b>	<p>Accreditation of B2 in Spanish, by means of a certificate or by means that the Academic Commission considers appropriate, except for graduates of Spanish degrees in the Spanish University System or from a Spanish-speaking country.</p>
<b>Biomedical Engineering</b>	<p>For foreign students, accreditation of knowledge of Spanish language.</p>
<b>Biomedical Research</b>	<p>Accreditation of level C1 in Spanish by certificate or personal interview.</p>

<b>Business Management from an Innovation and Internationalization Perspective</b>	<p>For students with access degrees not related to the business economics field, the completion of additional training may be required.</p> <p>Knowledge of at least a B2 level or equivalent in Spanish on presentation of the corresponding official qualification or, failing that, by any other means deemed appropriate by the Master's Academic Committee. Excluded from this procedure are graduates of an undergraduate degree taught in the Spanish University System that gives access to this master's degree or those from a Spanish-speaking country.</p>
<b>Chemical Engineering</b>	<p>Students with certain access degrees may be required to complete complementary training, with the exception of Degree in Chemical Engineering, Degree in Industrial Chemical Engineering, Degree in Environmental Engineering by the UPV/EHU, Chemical Engineering, Industrial Technical Engineering (esp. Industrial Chemistry), Industrial Engineering (esp. Industrial Chemistry).</p>
<b>Chemistry and Polymers</b>	<p>Since three subjects are offered in English, the academic committee of the Master's Degree shall ensure that students who wish to enroll in some of them prove their language skills in that language. No specific level of English is expected to be required to all students, given that because they are all optional subjects, students who are not fluent in English can complete their academic journey in the Master's Degree avoiding the aforementioned subjects.</p>
<b>Cognitive Neuroscience of Language</b>	<p>English: Cambridge First Certificate or higher (or equivalent), or verified by personal interview.</p> <p>Basic knowledge of data analyses and experimental design.</p>
<b>Comparative Literature and Literary Studies</b>	<p>Spanish knowledge, level B2.</p>
<b>Conservation and Exhibition of Contemporary Art (CYXAC)</b>	<p>Carta de motivación, en formato de redacción libre, con las siguientes cuestiones:</p> <ol style="list-style-type: none"> <li>1) Antecedentes académicos y/o profesionales que hayan motivado la elección de esta especialización (por ejemplo, asignaturas cursadas en este ámbito de estudio, prácticas durante el grado, tema del TFG, proyectos personales relacionados...).</li> <li>2) Expectativas sobre el máster: qué espera recibir en este proceso de formación y cuáles son los objetivos personales durante el desarrollo de los estudios (deseo de llevar a cabo prácticas, de qué tipo, tipo de especialidad que le interesa al/a la alumno/a más entre conservación, exposición...).</li> <li>3) Objetivos a futuro relacionados con el máster: carrera profesional y/o académica de su interés y su posible relación con estos estudios.</li> </ol>

	Students with access degrees not related to the degrees of Fine Arts, Conservation, Restoration and History of Art must attend 6 ECTS of complementary training.
<b>Construction Engineering</b>	<p>Achieve a minimum score of 50 points out of 100 with the <a href="#">merit assessment criteria</a> established by the master.</p> <p>For students from non-Spanish-speaking countries, accreditation of level C1 in Spanish.</p>
<b>Contemporary History</b>	For foreign students, accreditation of knowledge of Spanish language.
<b>Contemporary Technological and Performance Art</b>	<p>For students coming from degrees unrelated to contemporary creation, complementary training may be required.</p> <p>Written and graphic report: on motivations and interests to pursue these studies. It is necessary to obtain a minimum rating of 25 points between the written report and the graphic file to be admitted to the master's degree.</p> <p>Specifications:</p> <ul style="list-style-type: none"> <li>- Written report in pdf format and with a maximum length of 600 words: which reports the academic and/or professional background that motivated the choice of the master's degree, expectations about it and future objectives.</li> <li>- Graphic report or portfolio with a maximum size of 10 MB: the adaptation of the creations shown to contemporary artistic proposals of technological and performative art and the relevance of the contributions will be valued.</li> </ul>
<b>Control Engineering, Automation and Robotics</b>	Accreditation of C1 in Spanish, by means of a certificate or by means that the Academic Commission considers appropriate, except for graduates of Spanish degrees in the Spanish University System or from a Spanish-speaking country.
<b>Development and International Cooperation</b>	Knowledge of at least a B2 level or equivalent in Spanish on presentation of the corresponding official qualification or, failing that, by any other means deemed appropriate by the Master's Academic Committee. Excluded from this procedure are graduates of an undergraduate degree taught in the Spanish University System that gives access to this master's degree or those from a Spanish-speaking country.
<b>Economics: Empirical Applications and Policies</b>	<p>For students with certain access degrees, complementary training may be required.</p> <p>Accreditation of the B2 level of English for non-native speakers. Those whose mother tongue is English or who</p>

	have completed their university studies entirely in English are exempt from this requirement.
<b>Environmental Contamination and Toxicology</b>	Accreditation of level B2 in English by certificate or testing English at the centre.
<b>Environmental Engineering and Management</b>	<p>Accreditation of level B2 in Spanish, by means of a certificate or by means that the Academic Commission considers appropriate, except for graduates of Spanish degrees in the Spanish University System or from a Spanish-speaking country.</p> <p>For students with certain access degrees, complementary training may be required if they do not prove having previously studied the following subjects: Chemistry, Ecology and Microbiology, Engineering and Construction Projects and Facilities, except for students graduated in Environmental Engineering. Training supplements shall be carried out, in general, prior to the completion of the master's degree or during the first four months of the master's degree. This complementary training will not be a prerequisite for master's courses, so they can be carried out in parallel with master's own subjects.</p>
<b>Erasmus Mundus International Master of Science in Marine Biological Resources (IMBRSea)</b>	Accreditation of level B2 in English or having completed and approved in English at least one year of prior studies in higher education.
<b>Erasmus Mundus Master in Architectural and Urban Contemporary Heritage – ARURCOHE</b>	Accreditation of level B2 in English for non-native speakers.
<b>Erasmus Mundus Master in Renewable Energy in the Marine Environment (REM+)</b>	Accreditation of level B2 in English for non-native speakers.
<b>Erasmus Mundus Master of Science in Environmental Contamination and Toxicology (ECT+)</b>	Accreditation of level B2 in English for non-native speakers.
<b>Erasmus Mundus Master of Science in Marine Environment and Resources (MER)</b>	Accreditation of level B2 in English for non-native speakers.

<b>Feminist and Gender Studies</b>	Knowledge of at least a B2 level or equivalent in Spanish on presentation of the corresponding official qualification or, failing that, by any other means deemed appropriate by the Master's Academic Committee. Excluded from this procedure are graduates of an undergraduate degree taught in the Spanish University System that gives access to this master's degree or those from a Spanish-speaking country.
<b>Finance and Financial Management</b>	Knowledge of at least a B2 level or equivalent in Spanish on presentation of the corresponding official qualification or, failing that, by any other means deemed appropriate by the Master's Academic Committee. Excluded from this procedure are graduates of an undergraduate degree taught in the Spanish University System that gives access to this master's degree or those from a Spanish-speaking country.
<b>Globalization and Development</b>	Knowledge of at least a B2 level or equivalent in Spanish on presentation of the corresponding official qualification or, failing that, by any other means deemed appropriate by the Master's Academic Committee. Excluded from this procedure are graduates of an undergraduate degree taught in the Spanish University System that gives access to this master's degree or those from a Spanish-speaking country.
<b>Governance and Policy Studies</b>	Knowledge of at least a B2 level or equivalent in Spanish on presentation of the corresponding official qualification or, failing that, by any other means deemed appropriate by the Master's Academic Committee. Excluded from this procedure are graduates of an undergraduate degree taught in the Spanish University System that gives access to this master's degree or those from a Spanish-speaking country.
<b>Healthy Aging and Quality of Life</b>	For students with certain access degrees (mainly those with degrees in the social sciences), complementary training may be required.
<b>Human Resource and Employment Management</b>	Foreign persons (including those from EU States) who have been included in the provisional list of admitted persons, may be interviewed (via internet, telephone...) to verify that the level of Spanish is appropriate for carrying out these studies.
<b>Industrial Engineering</b>	Accreditation of level B2 in the language in which they wish to receive the teaching (Spanish or Basque) by means of a certificate or by any other means that the Academic Committee considers appropriate, except for graduates of degrees taught in Spanish in the Spanish University System or from a Spanish-speaking country.

	For students with certain access, complementary training may be required, which they must attend before they are enrolled in any subject of the master's degree.
<b>Industrial Engineering Organization</b>	For students coming from Engineering degrees outside the scope of the industrial organization, complementary training may be required before registration of any subject of the master's degree.
<b>Innovative Enology</b>	For students with certain access degrees, complementary training may be required.
<b>Integration of Renewable Energy Sources into the Electricity Grid</b>	Accreditation of level B2 in Spanish, by means of a certificate or by means that the Academic Commission considers appropriate, except for graduates of Spanish degrees in the Spanish University System or from a Spanish-speaking country.
<b>International Studies</b>	Knowledge of at least a B2 level or equivalent in Spanish on presentation of the corresponding official qualification or, failing that, by any other means deemed appropriate by the Master's Academic Committee. Excluded from this procedure are graduates of an undergraduate degree taught in the Spanish University System that gives access to this master's degree or those from a Spanish-speaking country.
<b>Marine Studies</b>	Accreditation of level B2 in Spanish, by means of a certificate or by means that the Academic Commission considers appropriate, except for graduates of Spanish degrees in the Spanish University System or from a Spanish-speaking country.
<b>Mechanical Engineering</b>	For students coming from Engineering degrees, it may be required to carry out complementary training, except for graduates in Mechanical Engineering, who will have direct access to this master's degree.
<b>Microbiology and Health</b>	Knowledge of at least a B2 level or equivalent in Spanish on presentation of the corresponding official qualification or, failing that, by any other means deemed appropriate by the Master's Academic Committee. Excluded from this procedure are graduates of an undergraduate degree taught in the Spanish University System that gives access to this master's degree or those from a Spanish-speaking country.
<b>Models and Areas of Social Science Research</b>	Knowledge of at least a B2 level or equivalent in Spanish on presentation of the corresponding official qualification or, failing that, by any other means deemed appropriate by the Master's Academic Committee. Excluded from this procedure are graduates of an undergraduate degree taught

	in the Spanish University System that gives access to this master's degree or those from a Spanish-speaking country.
<b>Multimedia Communication</b>	Official accreditation C1 Basque or equivalent. Likewise, the possibility of accreditation by means of an ad hoc interview.
<b>Multimedia Journalism</b>	For students with certain access degrees, complementary training may be required.
<b>Nautical Studies and Maritime Transport</b>	Accreditation of level B2 in Spanish, by means of a certificate or by means that the Academic Commission considers appropriate, except for graduates of Spanish degrees in the Spanish University System or from a Spanish-speaking country.
<b>Painting</b>	ALTHOUGH IT IS NOT AN ENTRY REQUIREMENT:  For specifications on the dossier (merit assessment), consult the website of the Faculty of Fine Arts <a href="https://www.ehu.eus/es/web/arte-ederren-fakultatea/tramites-de-masteres">https://www.ehu.eus/es/web/arte-ederren-fakultatea/tramites-de-masteres</a> .
<b>Project Management</b>	Accreditation of level B2 in English.  For students from non-Spanish speaking countries, accreditation of level B2 in Spanish.
<b>Public Economics</b>	It is recommended that students have an advanced knowledge of English that allows them to adequately handle economic literature. This advanced knowledge of English will be accredited by means of a Certificate of Advanced Level (B2) or higher in accordance with the CEFR - Council of Europe or equivalent certificates issued by ACLES or CRUE, or by the students accrediting that English is the official language in their country of origin.
<b>Quantum Science and Technology</b>	Accredit knowledge of English at level B2 or higher according to the CEFR, Council of Europe or equivalent certificates issued by acles or CRUE, or by students accrediting that English is the official language in their country of origin, or that the committee decides that their level of English is sufficient.
<b>Research in Communication</b>	International students who have not completed their undergraduate studies in Spanish or who do not come from a Spanish-speaking country must provide proof of their Spanish language proficiency, with a minimum level of B2. This requirement may be fulfilled through the documentation submitted with the application (official Spanish language certificates, etc.) and by attending a personal

<b>Research in Energy Efficiency and Sustainability in Industry, Transport, Construction and Town Planning</b>	<p>High knowledge of English.</p> <p>Accreditation of level B2 in the language in which they wish to receive the teaching (Spanish or Basque) by means of a certificate or by any other means that the Academic Committee considers appropriate, except for graduates of degrees taught in Spanish in the Spanish University System or from a Spanish-speaking country.</p>
<b>Research in Socio-educational Areas</b>	<p>Have completed a degree in one of the official languages of the Basque Autonomous Community or level C1. For these purposes, these will be considered official documents. If necessary, it is possible to request a direct interview with the academic committee.</p>
<b>Social Anthropology</b>	<p>Have completed a degree in one of the official languages of the Basque Autonomous Community or level C1. For these purposes, these will be considered official documents. If necessary, it is possible to request a direct interview with the academic committee.</p>
<b>Social communication</b>	<p>Knowledge of at least a B2 level or equivalent in Spanish on presentation of the corresponding official qualification or, failing that, by any other means deemed appropriate by the Master's Academic Committee. Excluded from this procedure are graduates of an undergraduate degree taught in the Spanish University System that gives access to this master's degree or those from a Spanish-speaking country.</p>
<b>Social Economy and Solidarity Economy</b>	<p>For students from degrees where basic economic knowledge is not acquired, complementary training may be required.</p> <p>Knowledge of at least a B2 level or equivalent in Spanish on presentation of the corresponding official qualification or, failing that, by any other means deemed appropriate by the Master's Academic Committee. Excluded from this procedure are graduates of an undergraduate degree taught in the Spanish University System that gives access to this master's degree or those from a Spanish-speaking country.</p>
<b>Sovereignty in the Peoples of Europe</b>	<p>Given that the master's degree is taught in Basque, candidates must have an adequate knowledge of this language.</p> <p>They must have a basic knowledge of English or French.</p>
<b>Space Science and Technology</b>	<p>For students from non-Spanish-speaking countries, accreditation of level B2 in Spanish.</p>

<b>Sustainable Engineering                      Energy</b>	Accreditation of level B2 in Spanish, by means of a certificate or by means that the Academic Commission considers appropriate, except for graduates of Spanish degrees in the Spanish University System or from a Spanish-speaking country.
<b>Teacher Training for Compulsory Secondary Education, Upper Secondary Education, Vocational Training and Foreign Language Teaching</b>	<p>1. QUALIFICATION: university qualifications suitable for teaching in Secondary Education, Baccalaureate, Vocational Training and/or Language Teaching, corresponding to the chosen specialty, according to the table of qualifications and specialties for high school teachers in force of the Basque Government's education department.</p> <p>2. FOREIGN LANGUAGE: Title equivalent to level B1 of the Common European Framework of Reference for Languages.</p> <p>3. EUSKARA: Level B2 accreditation is entry requirement.</p>
<b>Telecommunication Engineering</b>	For students with certain access degrees, complementary training may be required, which must be completed before enrolling in any subject of the Master's Degree.
<b>Theoretical and Experimental Linguistics</b>	Accreditation of level B2 in English and Spanish by certificate or academic record (if candidate has studied any subject in those languages or has studied any subject related to those languages).
<b>Theoretical Chemistry and Computational Modelling</b>	For students with certain Access degrees, complementary training may be required.
