

SPINTRONICS AT QUINST

YUE BAN

- 1- Spin control in quantum dots by shortcut to adiabaticity
- 2- Spin dynamics in tunneling decay of a metastable state
- 3- Shape-dependent spin transport in an electron waveguide with spin-orbit coupling

QUINST SEMINARS

Seminario de Química Física
February 18: 12:00, 15:00
February 19: 10:00
